Cyber Range Event

Thank you for registering for the Skillsoft CMD+CTRL event. During this time, you will be attacking a purposefully vulnerable banking website - Shadow Bank. Together we will:

- Find and exploit vulnerabilities
- Score Points
- Collaborate with other participants
- Move up the leaderboard
- Have fun!

Monday, June 10th & Tuesday, June 11th | 10:00 AM - 2:00 PM EST

What to Expect

At the event start time, we will give a brief introduction to the CMD+CTRL Cyber Range, review basic guidelines, and share some tips to get you started.

Throughout the day, we will use this meeting to conduct short training sessions on specific topics, answer general questions, and share periodic hints.

Join us on Zoom!

JOIN THE EVENT

Access your CMD+CTRL Account

On event day, you will register at www.cmdnctrl.net by entering the requested info and the event code:

sk1lls0ft24day1 for June 10

sk1lls0ft24day2 for June 11

If you are returning to play with us and already have an account, you can reset your password or just log right in. To do so, use the Join Another Event button in the upper right and enter the event code where prompted.

Once you've logged into the platform, you are all set for the event!

LOGIN TO CMD+CTRL

Chat with Us

Once you set up your account, you will see a round blue "help" icon in the lower right-hand corner of the homepage. This is where you can ask questions and let us know if you need any help during the event, if you aren't sure where to start, need a hint, or if you think you found a vulnerability for which you did not receive points.

We want you to score and are here to help; we don't know you're struggling unless you reach out.

VISIT HOMEPAGE

New to Application Security?

If you are new to application security, we're here to help. Check out our "cheat sheet" available on the CMD+CTRL Platform by selecting the "GUIDES" section under "Hacking 101" in the main navigation menu. You can also watch our CMD+CTRL platform overview video for additional tips, or connect with us directly via the help chat for live support during the event!

About Shadow Bank

Our gamified Cyber Ranges take engagement to a new level. Designed to provide insight into how connected software functions and fails with respect to security, each realistic Cyber Range environment presents an array of vulnerabilities to challenge the learner. Shadow Bank is a classic web application that challenges participants to find vulnerabilities through account creation, fund

transfers, stock & currency trading, forum posting, loan requesting, past transaction viewing, and more.
